

Logging in to the CAK Internet Content Filter

*NOTE: Filtering applies **ON-CAMPUS for iPads and MacBooks**. Filtering applies **OFF-CAMPUS only to iPads**.

- 1) Go to Safari and visit www.caktech.org. You will get a block page like this. Tap near the bottom where it says "Login".

- 2) You'll get a second page to Login. Tap the "Google" box in the middle.

- 3) Enter your CAK email username and password and tap login. **While it will still show as a block page, at the bottom of the block page your CAK Email address should now show instead of "anonymous"**. This lets you know your login was successful.

Notes

- Without completing this process, you will only have access to educational websites.
- You can also complete this process on any blocked page.
- The Mail app on the iPad will NOT work unless you have logged in
- You MUST log in anytime you access a new network (school, home, etc.)
- Logins will last 18 hours on a particular network, so you should only need to sign in to each network once per day.
